Your Notes

Welcome to AvatarMeet 2014!

Now in its third year and still going strong, AvatarMeet finds itself in Los Angeles, the home of Lightstorm and the creators of Avatar. Of course this can only mean one thing. The 'txantsan' visit to the studios, courtesy of the amazing people there who have been so accommodating of us and to whom we give a massive IRAYO NÌTXAN for all they have done for us. As you will find out they are just as big a fans of us as we are of them ... and of course Avatar!

Again Karyu Pawl is joining us and will give us a Na'vi refresher as well as Class 103, which will be the next step along the way in learning Na'vi with the creator of the amazing language. The planning team would like to extend a IRAYO NÌTXAN to Pawl and John who have provided massive support for the event.

This Meetup Survival Guide will give you the low down on what is planned for the event, along with useful information to help you get the most out your time with the clan. Everything we can think of is covered, from arrival until the time we have to say 'kiyevame,' but if you have any questions, please don't hesitate to ask. Enjoy your time with your Avatar family. So as they say in Hollywood: Lights, Camera ... ACTION!

Non-Disclosure Agreement - Frequently Asked Questions:

What is a Non-Disclosure Agreement and what does it mean?

It's essentially a written promise to keep a secret. A Non-Disclosure Agreement, or NDA, is a legal contract between two or more parties that formalizes the trust between those parties. It outlines the material, knowledge, or information that the parties wish to share with one another, but wish to restrict access to or by third parties. The NDA means that both parties agree not to disclose

information covered by the agreement so it is very much based on trust. However, if an individual breaks that trust and the contract is breached, they will be faced with consequences.

In the case of the visit to Lightstorm, the NDA will be an agreement between yourself and Lightstorm Entertainment Inc. It means that you will not be able to disclose through any means publicly or privately what you will get to see and hear about whilst on their premises, without their formal agreement. The full terms of their agreement is contained within the NDA, which will be forwarded to you prior to the event for review and hopefully your agreement so you can visit their facilities. Be assured, though, that this is normal practice for any such visit to a studio and is nothing new. Who knows what or who we might see?

Why do I have to fill one in?

Lightstorm's facilities are a busy place as they are working towards starting production on the next Avatar films. Consequently, Lightstorm needs to ensure that their work is protected from leaks and allows them to 'reveal the curtain' when the time is right. The NDA is all about trust and by signing it, Lightstorm is depending on you to honor that trust. If there are any breaches in that trust it would seriously jeopardize, if not prevent, any future Lightstorm and fan base interaction.

Do I need to see a lawyer before I sign it?

If you feel the need to seek legal advice prior to signing the agreement, you can. However, the content of the NDA cannot be changed as it belongs to Lightstorm. If you feel unable to sign the agreement, you will not have to. However, you will not be able to enter Lightstorm's premises and will miss out on an amazing experience!

When and where will I need to sign it?

If you have not already been able to sign the NDA and get a copy forwarded through, copies of the NDA will be available at the welcome event for signing.

What if I share my ideas for Avatar whilst at Lightstorm?

The employees of Lightstorm Entertainment know that this community has a deep bond with Avatar and a vast imagination, but please DO NOT share any ideas, pitches, concepts... while on the studio lot or through outside correspondence (phone, email, mail...) as they are legally constrained from receiving them.

What happens if I accidentally say something that breaches the NDA?

Prevention is better than the cure - stick by the letter of the agreement that you

signed with Lightstorm. The NDA is all about trust and Lightstorm is depending on us to honor that trust. If there are any breaches in that trust, as mentioned above, it would put at risk the relationship that we have built with Lightstorm.

However, if you do let something out, 'hold your hand up' and be honest. Lightstorm will need to know so they can understand what the breaches are and how to contain them (no one likes spoilers). They will be very much relying on the community to self-police and it is important that any breaches are contained and removed from public view and Lightstorm is informed.

What are the consequences of breaching the NDA?

It depends on what the breach is, but let's be clear: Any breaches could not only put at risk any future interaction between Lightstorm and the Avatar fan base, but also put at risk all the hard work that is going into making the next three films. There may also be legal ramifications for the individual who breached the agreement. So put simply, don't say or post anything that you've agreed to keep between you and Lightstorm, and you will be fine.

The desire to share is human nature, so it will be critically important to keep that in check. For example, bragging that you met a cast member whose character died in the first Avatar could lead to all sorts of consequences for you. It's like the idiom: "loose lips might sink ships."

If you have a lot of trouble keeping secrets, you may wish to consider if this is one you'll want the burden of.

My friends on the forums and family will want to know what I got up to, what will I be able to tell them?

In a word: nothing! Non-disclosure is non-disclosure. However, there will be a portion of the visit where you will be able to take photos to share. The team at Lightstorm will want to take group photos too! They will also provide clear guidance on what the boundaries are, whilst at the same time doing all they can to make the visit as enjoyable and memorable as possible.

What do I do if I see someone breach the NDA?

Inform the planning team and the forum admin to have the post removed if it is on a forum. Lightstorm will need to be informed so they can understand what the breach is and work out how to deal with it and if necessary, the individual.

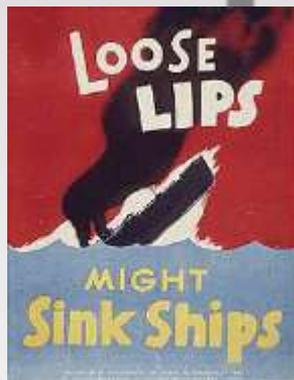

You are reminded though, that any breaches will probably end any future close ties between Lightstorm and the fan community. So let's not go there. Instead value the experience and the fact that you will have been to the home of Avatar!

Does the NDA also apply to overseas attendees?

Yes! Everyone visiting Lightstorm Entertainment must sign (and is bound by) an NDA.

What if I'm under the age of 18?

Please sign the NDA if you are under the age of 18 and have a legal guardian sign it as well.

Los Angeles Tourist Mode

Not everyone will be camping, so for those arriving early there will be an opportunity to explore Los Angeles as a clan. To help a guide to some of the local attractions has been provided. LA is well known for its congested roads and very limited parking, so you may find that having a car in LA is not the best way to get around. The alternatives are the buses and the metro. So below is a short guide to getting around LA the more environmentally friendly way.

General Getting Around:

The buses provide the most extensive coverage of the city, while the Metro runs rapid services over a number of dedicated routes as shown on the route map to the right. Their website is here: <http://www.metro.net/>

Single journeys by bus or rail are \$1.50. You need to make sure you have the correct change when using the bus. A single ticket is only valid on one line. If you change lines then you must buy another ticket. Alternatively, you can buy a Metro Day Pass for \$5, which can be bought at any metro station or on board any Metro bus. More information on fares can be found here: <http://www.metro.net/riding/fares/>

Buses:

There are over 200 services in LA and most run every 15 minutes, although there is a reduced service in the evenings and weekends as you would expect. More information about the buses can be found here: <http://www.metro.net/riding/maps/>

Metro:

There are five Metro lines: The green and blue lines provide routes from south LA to the enable you to change and join the red and purple lines that feed most of the tourist areas. More information about the Metro can be found here: <http://www.metro.net/riding/maps/>

Taxis:

Of course you may find that you need a taxi. Apparently it is virtually impossible to hail a cab, unless you are in downtown. Hotels and transport terminals are good place to find them and you will probably find that restaurants will order one for you at the end of the evening. Some useful taxi firms are:
